

Guatemala

The faces of the people
tell the story of their struggle.

So full of potential and promise, yet
trapped by circumstance and impoverished
conditions, Guatemalans have long lived
without hope for a better life.

Utilizing the human development approach
of Outreach International, Community of
Christ Health Ministries Association (HMA)
is helping families finally break free of the
“culture of silence” born of generations of
poverty and dependence.

Today they are waking up to brighter dawns
and new days of possibilities. Your support
can ensure they don't slip back into the
darkness.

When you join our mission,
you're helping build sustainable futures.
Your contribution not only goes to individuals
and families, but to entire communities,
giving them means to take control of their lives.

Visit our website and make
a donation that will
make a lifetime of difference.

Village Health Care
and Community
Development

Community of Christ
Health Ministries Association

with Outreach International

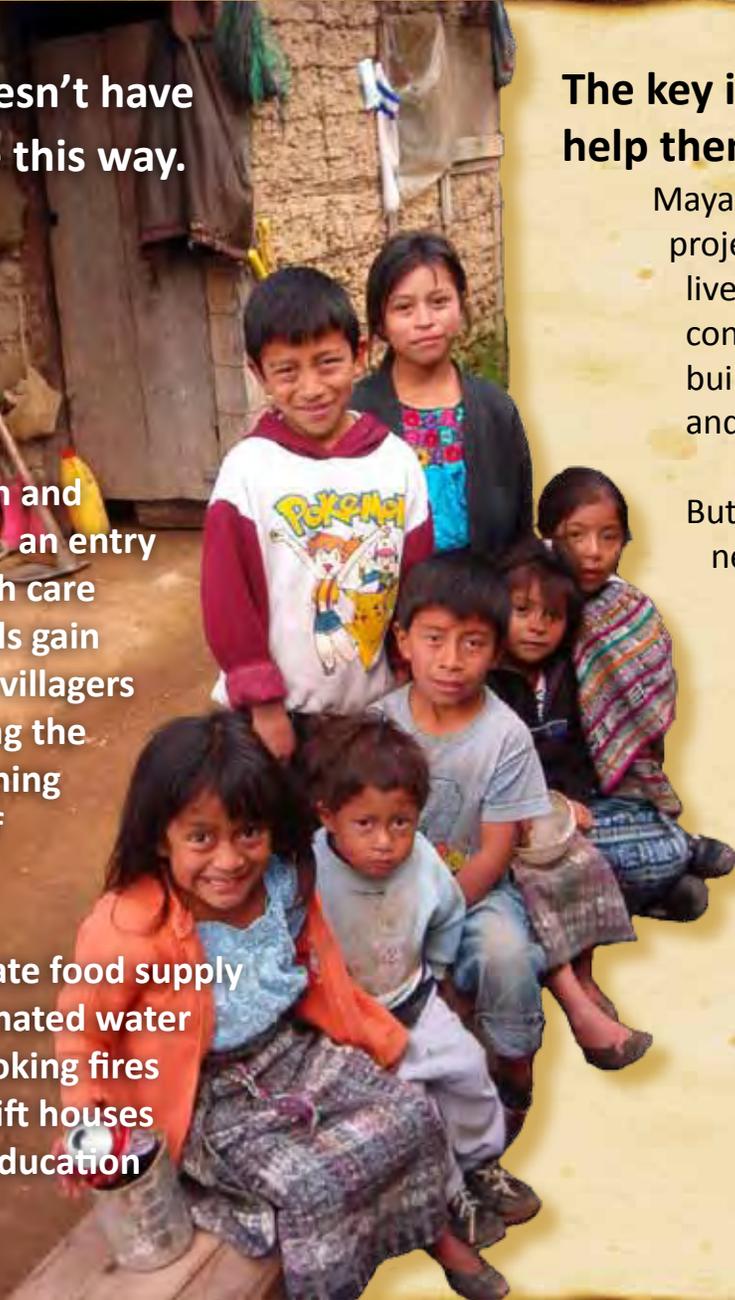

Guatemala

It doesn't have to be this way.

Using health and wellness as an entry point, health care professionals gain the trust of villagers in addressing the life-threatening problems of profound poverty:

- Inadequate food supply
- Contaminated water
- Open cooking fires
- Make-shift houses
- Lack of education

The key is helping people help themselves.

Mayan families are initiating and carrying out projects critical to improving and sustaining their lives throughout their communities. Today they conduct village health clinics, plant "tire" gardens, build schools and homes, drill wells, install stoves, and much more.

But the children and their families still desperately need your help. Your donation can alter the course of their lives forever by providing basic items like:

- * A backpack filled with school supplies - \$30
- * Clean drinking water for a family - \$60
- * A safe, non-toxic woodburning stove - \$125
- * Materials to build a house - \$200
- * An entire decent home for a family - \$2000

You can make a difference with what you have to give. Your gift will allow indigenous people to work their way out of the cycle of poverty. Make a gift now to be a part of sustainable good.
