

CHILDREN ACT FAST...SO DO POISONS

# POISON CONTROL GAME

HOW TO WIN: Follow all the instructions on the path and keep children safe.

Use child resistant packaging PROPERLY. Close it securely after EVERY use. A few seconds could save the life of a child dear to you.

Keep all chemicals and medicines locked up and out of sight. Use child resistant cabinet latches.

Use child resistant packaging PROPERLY. Close it securely after EVERY use. A few seconds could save the life of a child dear to you.

When products are in use, never let young children out of your sight, even if you must take them to the door or phone with you.

Call the Poison Control Center immediately in case of poisoning. Use Ipecac Syrup only if the Poison Control Center tells you to.

Keep Products in their original containers.

Leave original labels on products. Read labels before using.

Don't put decorative candles or lamps with lamp oil where children can reach them because lamp oil is very toxic to children.

Avoid taking medicine in front of children. Refer to medicine as "medicine," not as "candy."

Always leave the light on when giving or taking medicine. Check the dosage every time.

Clean out the medicine cabinet periodically. Safely dispose of unneeded medications when the illness for which they are prescribed is over. Pour contents down the drain or toilet and rinse the container before discarding.

**YOU WIN!**
